PROFESSIONAL SUMMARY

Sales Engineering and AdTech leader with over a decade of experience driving revenue growth, leading technical integrations, and scaling support for large-scale programmatic advertising platforms. Proven ability to bridge Sales, Engineering, Product, and Operations to solve complex technical challenges, accelerate onboarding, and build high-performing revenue teams. Deep expertise across the Supply-Side Platform (SSP) and Demand-Side Platform (DSP) ecosystem, real-time bidding (RTB), data analytics, and enterprise client enablement.

CORE COMPETENCIES

Sales Engineering & Leadership: Sales Engineering Leadership • Solution Architecture • Technical Integrations & API Workflows • Cross-Functional Collaboration • Client-Facing Technical Advisory

AdTech & Data: Programmatic Advertising (SSP / DSP) • Real-Time Bidding (RTB) • Revenue Intelligence & Deal Diagnostics • Data Analytics & Reporting (SQL, Python, Tableau, Snowflake)

Artificial Intelligence: AI-Assisted Workflows & Automation • Prompt Engineering • Applied AI for AdTech Operations & Enablement • Building AI-Powered Tools (ChatGPT, Claude, Gemini)

PROFESSIONAL EXPERIENCE

Lamark Media — Orlando, FL

Feb 2026 – Present

Head of Sales Engineering

- Lead the Sales Engineering function following Lamark Media's acquisition of Sonobi, continuing to direct technical strategy for enterprise publishers, agencies, and demand partners across the programmatic ecosystem.
- Serve as primary technical advisor on strategic deals, partnering across Sales, Product, Engineering, and Operations to align platform capabilities with client requirements.
- Drive integration strategy, onboarding efficiency, and revenue enablement during the post-acquisition transition, preserving deal velocity and client relationships.

Sonobi — Orlando, FL

Dec 2021 – Feb 2026

Head of Sales Engineering

- Led and managed a team of Sales Engineers supporting enterprise publishers, agencies, and demand partners across the SSP/DSP ecosystem.
- Built scalable sales engineering processes that improved deal close rates by approximately 50%.
- Reduced technical integration timelines from roughly 90 days to 14 days through standardized onboarding workflows and solution design.
- Served as primary technical advisor on strategic deals supporting more than \$100M in annual revenue.
- Partnered cross-functionally with Sales, Product, Engineering, and Operations to drive platform growth and resolve complex technical challenges.

BritePool — Orlando, FL

Apr 2019 – Nov 2021

Sales Engineer

- Led end-to-end technical integrations for enterprise advertising clients, owning technical discovery through implementation.
- Supported high-value deal closures through technical discovery, solution design, and stakeholder enablement.
- Contributed to product rollout and integration efforts that supported the company's acquisition.

Sonobi — Orlando, FL

Feb 2014 – Apr 2019

Director of Technical Operations

- Provided strategic technical leadership for publishers and internal stakeholders across the platform.
- Designed standard operating procedures (SOPs) and operational processes that improved efficiency and revenue outcomes.
- Led analytical assessments to identify and resolve platform and integration issues.

EDUCATION

Bachelor of Science, Computer Science

Full Sail University — Orlando, FL
